

Boeing is looking for the AS9100 + ISO 9001 certified plastic manufacturers and compounders in Turkey.

They should have working experience in one of the following areas:

- Injection molding
- Extrusion molding
- Thermo forming
- Rotomolding
- Compression Molding
- Machining of plastics and composites
- Selective Laser Sintering
- Reinforced Thermoplastic Laminates
- Foams
- Raw Materials Compounders and Polymerizers

And they should have working experience with any of the following materials:

- Commodity Thermoplastics (PP, PE, PS, ABS, etc.)
- Engineering Thermoplastics (PA, PC, PC/PBT, PBT, etc.)
- High Performance Thermoplastics (PEEK, PEI, PPSU, PSU, PES, PPS, PPA, etc.)
- Fluoropolymers (PTFE, PFA, PVF, PVDF, ECTFE, FEP, etc.)
- Teflon (PAI)
- Thermoplastic Elastomers (TPU, TPV, SEBS, etc.)
- Reinforced Materials (Carbon, Glass, Conductives, etc.)
- Recycled / Regrind Materials
- Foam materials
